9. What can we do.....less on lighting? (spend)
10. Ba's hobbies are.....football and collecting old stamps.(play)

EX3: . Read the passage , then decide if the statements that follow are True (T) or False (F):

In Western countries, electricity , gas and water are not luxuries but necessities. Companies now realize that consumers want products that will not only work effectively, but also save money.

For most North American households , lighting accounts for 10 percent to 15 percent of the electricity bill. However, this amount can be reduced by replacing an ordinary 100 watt light bulb with an energy saving bulb. These bulbs use a quarter of the electricity of standard bulbs and last eight times longer. Therefore, consumers can save about USs 7 to USs 21per bulb.

True False

1. Only electricity is necessity for everyone
2. Consumers want products that will not only work effectively, but also save money.
3. If we replace an ordinary 100 watt light bulb with an energy saving bulb, we'll reduce the amount of lighting we use.
4. Consumers can save a lot of money from using energy

saving bulbs.
